

THINK
OUTSIDE
THE
BOX

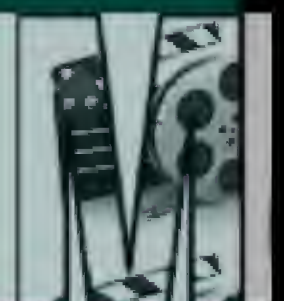

**Try to connect all 9 dots using
only 4 straight lines. You may
not lift up your pen.**

You are driving a car on a wild stormy
night, its raining heavily,
when you pass by a Bus Stop
you see Three people
waiting for a Bus.

1. An Old Lady who looks as if she is about to die
2. An Old Friend who once saved your life
3. The Perfect partner you have been dreaming about.

To whom you offer a ride ?

Remember there can be only
ONE passenger in your car

The Guy Answered:

I will give the car keys to my friend and let him take the lady to Hospital. I would stay behind & wait for the bus with my Partner of my Dreams.

1. The Man in the Elevator

A man lives on the tenth floor of a building. Every day he takes the elevator to go down to the ground floor to go to work or to go shopping. When he returns he takes the elevator to the seventh floor and walks up the stairs to reach his apartment on the tenth floor. But on rainy days he goes up in the elevator to the tenth floor .so why does he do it?

1. The man in the Elevator

The man is (of course) a dwarf. Variants of this puzzle include the clue that on rainy days he goes up in the elevator to the tenth floor (he uses his umbrella!)

7. Trouble with Sons

A woman had two sons who were born on the same hour of the same day of the same month of the same year. But they were not twins. How could this be so?

7. Trouble with Sons

They were two of a set of triplets (or quadruplets etc.)
